# WELCOME TO TRAPFORM

Hello, and thanks for showing an interest in Trapform, the UK's finest Sports ratings site on the Internet!

## What is Trapform?

Trapform is a Greyhound Ratings Website covering many UK Greyhound Tracks. We have a HUGE Database of past Greyhound Form and we compute ratings based on past performances and the make up of the race that is about to take place. We cover Graded, Inter Track AND Open Races, including most of the Sky, Eurosport races.

Ok sounds fair enough, Show me what I will get if I join and how on earth do I know what to do when I do join?

Below is an actual grab of the cards seen by our members when logged in, Showing the Time, Meeting, Grade (or Open) plus all of the dogs details broke down into early pace, staying pace, best times, Our DIFF figure which is our rating, plus the amount of form the dog has in the database. If you click a dogs name on the site you will see FULL form for its last 5 races.

Taking the card on next page into consideration, you will see the ECLIPSE Final at Nottingham in November 2006 where ZigZag was 11/10f, Our members saw we rated it as having no early and struggling to get in the race, With Clash Top rated and a bet . We also said 3 would lead. 3 Led, Clash picked it up and ZigZag never got in the race.

We rate the dogs in order of predicted finish. We also got the first 6 home in correct order of Westmead Hawks Quarter final and were a short head out on winning time!

Please Note the image is not of the high quality as the actual interactive scripts on the website and you can't click the dogs name in the Image on the next page.

Ok, how do I find the races I want on the website and what other options are open to me?

When you log in you will see the daily members page, from there you can choose to look at any one meeting or them all in one go, the races will all be in timed order of start time at each meeting. You will also see our Trainer and Trap percentage links which we update each day. You will also see the links for the settler's pages where we hold the last SEVEN DAYS ratings cards with the results added to them. From here you can check your bets or systems, such as betting the top 3 rated on betfair in each race. You have a settler's adjustment where you can add points to the bets or lays to calculate profit and loss.

You can also click the OR tick boxes when viewing the days ratings and it will show you all the Open Race ratings for that day in order too.

In the very near future we will be bringing more tracks to add to the many we cover already, we are still developing the Open Race tool and its use is on a beta basis with just finishing times taken into account thus far. Even if they have never run the track before.

Our biggest winner to date was live on sky when WINKY CORKER won at 14s and a Betfair price of 28 and was also a GREEN strong bet.

**Hang on what's a green strong bet?**

Our bets are rated in DIFF order as you've seen on previous pages, If its green and top rated then it's a bet (PLEASE Check it isn't rated seconds clear as that would be erroneous and you would go by the TIME figure). For lays the REDS that are .48 or more DIFF and 100% form figure are suggested lays, BUT you have to check for fitness, no good laying it if its going to hit season ripeness or been downgraded and will get a run etc.

You may wish to lay a dog rated 3<sup>rd</sup> or 4<sup>th</sup> etc in the race instead.

We suggest Betting the Greens or top rated .10 better than second. Or betting the top 3 in each race at Betfair's huge odds. We also suggest you NEVER lay over 6.0 on Betfair and never chase.

I personally will look at the race card, then the ratings and meet somewhere in the middle. I will bet the .10s and lays the .48 pluses but also look to lay a few shorties that the ratings say may struggle.

**Ok I am interested what next?**
